PROFILE SUMMARY

A passionate web developer skilled in HTML5, CSS3, JavaScript, Bootstrap, and React.js for creating responsive, user friendly interfaces. Proficient in SQL for database management. Dedicated to continuous learning and solving complex problems with innovative solutions. Eager to contribute to impactful projects and collaborate in a team-oriented environment. Currently learning Node.js and Express.js to enhance backend development skills.

EDUCATION

B.TECH(CSE)	2020-2024
SRINIVASA INSTITUTE OF ENGINEERING AND TECHNOLOGY	CGPA:7.28

PROJECTS

MOVIE FINDER USING REACTJS [Movie Finder](#)

- A movie finder helps users search and explore movies effortlessly, providing quick access to essential details.
- It enables users to discover movies based on titles, genres, and ratings, enhancing their viewing experience.
- Designed with a responsive interface, ensuring smooth navigation across various devices while fetching real-time data from a third-party movie database API.
- Built using **React.js, HTML5, CSS3, and JavaScript**, leveraging a component-based architecture for optimal performance.

CAR RENTAL SYSTEM [CarRentals without User](#)

- A car rental system allows users to browse and book vehicles for temporary use, offering flexibility and convenience.
- It provides a streamlined platform to filter cars based on preferences such as model, price, and availability.
- Designed with a responsive layout, ensuring seamless interaction across desktops, tablets, and mobile devices.
- Built using **HTML5, CSS3, and JavaScript** to create a dynamic and user-friendly experience.
